BUFFER SOLUTION PH 7.0

POTASSIUM PEROXODISULFATE

About Us

Alpha Chemika is a major name in the field of Organic and Inorganic Chemicals. Since 1962, we have been a key manufacturer and global supplier in the market. We are an ISO 9001:2000 certified company, and our work is based on proven technologies and prevailing norms of the industry. Committed to quality, consistency and excellent service, we have a trusted reputation in the chemical industry. Our range includes Mercuric Chloride, Lanthanum Acetate, Cerium Oxide, Mercuric Chloride, Hydrochloric Acid, and more. We provide our customers with the best quality materials at very reasonable cost. Also, our people are dedicated to give support for all our products to ensure that all aspects of quotation, order processing, packaging and shipment is carried out professionally & smoothly.

Our Organic Chemicals find a large range of applications. They form the base of, or are essential components of, numerous commercial products including petrochemicals, pharmaceuticals, plastics, explosives and fuels etc. Further, our Inorganic Chemicals have applications like: catalysts, fuel, surfactants, coatings, pigments, medicine and agriculture. We keep up with thorough procedures and incorporate quality equipment and chemicals. Thus, we are able to offer you the best possible and we look forward to create long-term relations for mutual benefit. We are specialized in providing samples and quotations to the associates of global tenders, floated by the appropriate Ministry of Education & Sports and Ministry of Health in different countries. We work with our customers to achieve greater business recognition and success in the future. Our activities in well-equipped production unit are guided by a strong commitment to accomplish total quality & performance. We have facilities to develop innovative products, and welcome all your suggestions to improve the quality of our Organic Chemicals and Laboratory Chemicals etc. Today, we have an eminent clientele which includes some reputable technical institutes, schools, colleges, research centers and more.

With the improvement in technology and science there is a vast increase in the demand of chemicals. Alpha Chemika is a leading lab chemical manufacturer in India. Approximately 80% of our products including Inorganic Salts and High Purity Acids etc. are exported to various overseas regions of Germany, Saudi Arabia, and other parts of the globe. Applications for the inorganic salts reach from industrial capabilities to very precise chemical process. Also, we have the quality to meet your exact application need. We are a member of reputed Basic Chemicals, Pharmaceuticals & Cosmetics Export Promotion Council - CHEMEXIL.

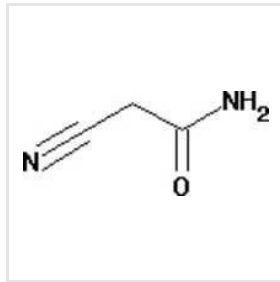

Key Facts

No of Staff	55
Year of Establishment	1962
OEM Service Provided	No
Memberships	QRO Certification LLP

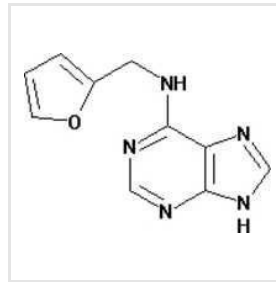

Our Products

Lithium Hydroxide Monohydrate

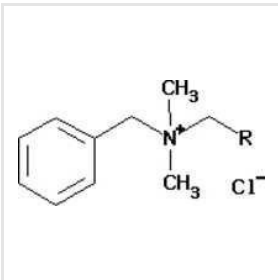

Cyanoacetamide Chemical

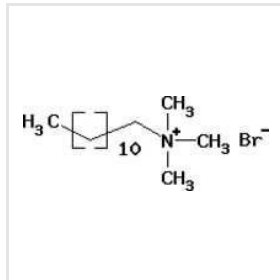

(Furfurylamino) Purine

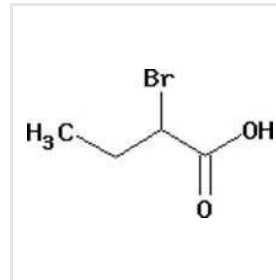

Serine Chemical

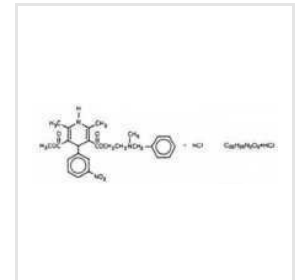

Alloy Acc. To Wood

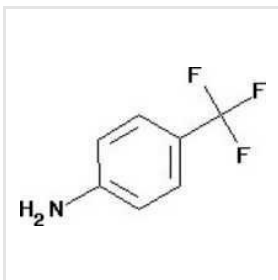

N-Dodecyltrimethylam...

2-Bromobutyric Acid

Sodium Hydroxide Monohydrate

4 - Aminobenzotrifluoride

ACETIC ACID HYDRAZIDE

ACETOBROMO A D GLUCOSE

ACETONE OXIME

Acetoxyacetophenone Chemical

ACETYL CHOLINE CHLORIDE AR

Acetylfuran Chemical

DIPHENYLAMINE AR (CAS No.122-39-4)

ALPHA CHEMIKA
