

DC Disc Brake

Manufacturer, Supplier and Exporter

AC Disc Brake, Brake Drum Coupling, Cable Trolley, Current Collector, DC Disc Brake, Electromagnetic Brakes Disc Spares, Flame Proof AC Brakes, Gear Coupling, Gravity Limit Switch, Industrial AC Brake Coils, Industrial Clutches, Industrial DC Brake Coils, Lever Limit Switch, Master Controller, Push Button Station (Pendant), etc.

AC DISC BRAKE

DC DISC BRAKE

FLAME PROOF AC BRAKES

About Us

Electromech Engineers is doing a profound work in the field of engineering products. Our company is a key manufacturer & global supplier of DC Electromagnetic Brakes, Clutches, Brake Coils, Rotary Switches, and more. Since 1984, we have been meeting the needs of many clients for industrial supplies. As an ISO certified company, we try to maintain engineering excellence and best quality standards. We work in accordance with the industry defined norms and specifications. As a result, we perfectly serve the industry with application specific and technologically reliable Electromagnetic Brakes, and other products.

We, Electromech Engineers meet the demands of mining, marine, machine tools, earth-moving equipment, and various machinery / equipment applications by supplying Clutches, Brake Coils, DC Electromagnetic Brakes, Rotary Switches. etc. Our offered products are designed & engineered to be durable, efficient and easy to install as well as maintain. Also, we make sure that our products require less maintenance and ensure consistent application performance. A.C. / D.C. type Electro Magnetic Brakes find broad uses for Cranes, Hoists & Elevators etc., and used in industries like Rubber, Steel, Paper, Textile, Sugar, Mining and Cement. With our sound technical knowledge and huge industry experience, we bring innovative and suitable products for current market needs. We have all the needful technologies and production machinery that produce consistent quality results. Also, there is a strong team of skilled and dedicated employees who do a thorough work to match both organizational objectives and customers requirements.

Electromagnetic Clutches & Brakes are used in cranes, lifts, hoists, construction machines & other machine tools fields. The brakes are perfect to hold the enough loads in the same position. Keeping some losses in mechanism and fluctuation in the voltage of line, the brake is certain with 1.5 times of the placed running torque. In case of instant break is requisite, brake should be selected with 2 - 3 times of rated running Torque.

Key Facts

Nature of Business	Manufacturer
No of Staff	25
Year of Establishment	1984
OEM Service Provided	No

Our Products

Gravity Limit Switch

Industrial DC Brake Coils

Electromagnetic Brakes Disc Spares

Industrial AC Brake Coils

Radio Remote Control

Resistance Box

Cable Trolley

Push Button Station (Pendant)

Brake Drum Coupling

Current Collector

Solenoid Brake Coils

Thruster Brakes

Lever Limit Switch

Industrial Clutches

Shoe Type Brakes

Rotary Limit Switch
