## About Us

Fueling the growth of the Intermediate industry having hydrogenation & Distillation Process industry of India, we are King Chemical Industries from Gujarat. We stay at the forefront of Intermediate innovation with our range of Intermediate Chemicals, including but not limited to Di Phenyl Oxide, Phenyl Ethyl Phenyl Acetate, N, N-Di-sec-Butyl P-Phenylene Amine, Para Anisidine, Para Toluidine, etc. We ensure that the chemicals we formulate meet the global benchmarks of safety and efficacy, are quality tested to precision, and then marketed to diverse markets of India with unmatched speed. Since we laid our foundation stone, we have been working with the aim to extend our expertise in Intermediate chemistry to other manufacturers who are engaged in developing therapies. Hydrogenated products the latest innovation. Therefore, we make active pharmaceutical ingredients (APIs) or drug substances after carefully considering how they could pave the way for the prevention, treatment, and management of a wide spectrum of health conditions with their versatility, safety, and efficacy.

Having good access to quality assured Intermediate Chemicals like N, N-Di-sec-Butyl P-Phenylene Amine, 2,5 Di Methoxy Aniline, Para Anisidine, etc., is imperative for manufacturers engaged in making lifesaving medicines. We are King Chemical Industries from Bharuch INA, Gujarat that brings forward large batches of certified grade APIs and chemicals so that businesses specialized in manufacturing drugs and medicines can get their hands on affordable APIs that are sustainably produced, and quality verified. Our aim is to positively transform the healthcare industry and make remarkable progress in our field with our dedication and expertise.

## Our Products

2,5 DI CHLORO ANILINE

**2 5 Di Chloro Aniline**

PARA CUMIDINE

**Para Cumidine**

[1-(2-AMINO-2-OXOETHYL)  
CYCLOHEXYL] ACETIC ACID

**1-2-Amino-2-Oxoethyl  
Cyclohexyl Acetic Acid**

3-CHLORO-P- TOLUIDINE/3, CHLORO  
ORTHO TOLUIDIN

**3-Chloro-P- Toluidine-  
3 Chloro Ortho**

2,4 DI AMINO ANISOLE

**2 4 Di Amino Anisole**

2-(2-METHOXY- PHENOXY)-  
ETHYLAMINE

**2- 2-Methoxy-  
Phenoxy -Ethylamine**

PARA-CHLORO-META- XYLENOL

**Para-Chloro-Meta-  
Xylenol**

ORTHO TOLUDINE

**Ortho Toludine**

ORTHO CHLORO ANILINE

**Ortho Chloro Aniline**

3,4 DI CHLORO ANILINE

**3 4 Di Chloro Aniline**

4 CHLORO 2 AMINO PHENOL

**4 Chloro 2 Amino  
Phenol**

1-(ISOPROPYLAMINO)-3-(4-  
(2-METHOXY ETHY) PHENOXY)  
PROPAN-2-OL

**1-Isopropylamino-3-  
4- 2-Methoxy Ethyl**

LIDOCANE BASE/ LIDOCANE HCL

**Lidocane Base-  
Lidocane Hcl**

PARA ANISIDINE

**Para Anisidine**

4-PHENYL-2-BUTANONE

**4-Phenyl-2-Butanone  
Chemical**

2-BROMOMETHYL-1,3- DIOXOLANE

**2-Bromomethyl-1 3-  
Dioxolane**
