About Us

Sofia Cooltech Engineers is a popular company in the domain of cooling towers and its parts, components. We are working from Jaipur, Rajasthan as a manufacturer, supplier and exporter. Our product portfolio comprises Cooling Tower Honeycomb PVC Fill, Cooling Tower Aluminum Sprinkler Head, Industrial Cooling Tower, Evaporative FRP Cooling Tower, Flower Type Plastic Nozzle, and other products. Apart from these products, we also provide Cooling Tower Installation Service, and Cooling Tower Repairing Service. The solutions are targeted for the residential, commercial, and industrial applications. To elaborate, the Sofia Cooling Towers are ideal for air conditioning and refrigeration, process cooling, cold storage, diesel generating sets, captive power plants and many other areas.

We use the best materials, parts, components, and technologies in the manufacturing of cooling towers and its accessories. The production process is carried out as per the industrial standards and guidelines by our skilled experts. Because of the quality assurance, we are able to serve the clients based not just in India, but also in other countries like Africa, Nepal, Sri Lanka, Bangladesh, etc.
