About Us

The name of our reputed company, Vaibhav Bearing Centre is synonymous to excellence and reliability. Embracing business roles of trader, we are working in this competitive business world with an aim to have an access to a larger audience. To gain this access, we develop a strong business network and maintain consistency in quality of offered Mechanical Bearings. Understanding the demand of bearings, which are used to change linear or rotational movement, while doing reduction in friction and handling stress, our company has started dealing in them. A huge variety of Industrial Bearings are served at our company in different specifications.

Vaibhav Bearing Centre is supported by a team of expert technocrats who leave zero space for errors in manufacturing process. To design a wide impressive line of Skating Bearings, Special Bearings, Ec Centric Bearing, High Temperature Bearing, Spherical Ball Bearings, Miniature Ball Bearings, Crossed Roller Bearings, Eccentric Bearings, Real Slim Bearings and much more, our team of expert technocrats make use of quality-assured base materials and technologically updated machines and tools. Constant innovation in product-development helps in serving simply the best in terms of design, quality and functionality to customers. We produce various types of special and non-standard bearings and as a reliable service provider, we repair heavy single direction (oneway) bearings and other industrial bearings with warranty.
