

Besto Water Meter, Bolted Cover Y Type Strainer Cast Iron, Cast Cast Dual Plate Check Valve, Cast Dual Plate Check Valve, Cast Iron Accessible feed Check valve, Cast Iron Angle Globe Valve, Cast Iron Angle Lift Check Valve, Cast Iron Ball Valve, Cast Iron Butterfly Valve, Cast Iron Double Air Valve, Cast Iron Globe Valve, Cast Iron Horizontal Lift Check Valve, Cast Iron Kinetic Air Valve, Cast Iron Non Return Valve, Cast Iron Single Air Valve, etc.

KBM-G WATER METER

BESTO WATER METER

KAM-G CLASS A WATER METER

About Us

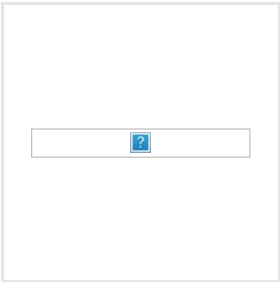

Substandard meters give faulty readings but the meters manufactured by Aman Engineering Works are high on quality, excellent in performance and accurate in their readings. Accurate measurements and Reliable readings are the hallmark of all our products. We are acknowledged as a noted manufacturer and exporter of all kinds of fluid flow measuring devices in India. Our wide spectrum of products include Water Meters, Flow Meters, Electric Power Tools, Kranti Cast Iron Valves and Test Benches, etc. We also import Flow meters from USA, Netherlands, Italy and China.

Jalandhar, Punjab (India) based, Aman Engineering Works was established in 1980 and widely recognized as India's leading as well as foremost Water Meters exporters and manufactures. Besides, we manufacture products under the brand name "KRANTI". The core strength of our firm lies within our foundry division where we utilize best grade raw material along with sophisticated technologies and latest equipments for the manufacturing of superior quality products. Our production facilities have the ability for developing accurate products in minimal industry lead time. Due to our continuous capability of delivering high quality products, we have been able to create a remarkable position in this domain and also counted among the largest manufacturing firms in India. The growth of our firm is showed through our fully integrated machining plant that excels 500000 water meters per annum.
