## About Us

Yashica Pharmaceuticals (PVT) Ltd. is among top-notch manufactures and exports of pharmaceutical such as Chlorobutanol Chemical, Fluconazole Powder USP, Antipyretic Medicine, Ferrous Sulphate, etc. According to the needs of the pharmaceutical and chemical sectors, our product line is created using premium raw materials. Our offered medicines are used for treating asthma, cardiovascular conditions, intestine constipation, hypertension, fungal infections, and other disorders and are hygienically processed, effective, and non-toxic.

Under the direction of our dexterous mentor, Mr. Sanjay Totre, we have carved out a niche in the world market. His passion and willingness to take risks are crucial in enhancing the reputation of our organization. The motto of our company is to offer goods that adhere to the strictest international standards and improvise the health of patients. We are serving 35 countries, including Europe, Africa, South America, South East Asia, etc. Our company is looking forward to add more to our product line so that we can help humans live a healthy life.

We place a high value on quality, and in order to uphold that standard in our solutions, we have built a strong infrastructure unit to support us. Additionally, we modernize the production facilities as technology advances, keeping us one step ahead. The installed equipment saves time and money while enabling us to produce high-quality products in bulk. The quality of our goods is what has propelled us forward and won over the clients. We guarantee perfection at every stage of production because it is essential to surviving in the cutthroat market. In a nutshell, we can claim with pride that our business is the ideal choice for people seeking top quality.
