About Us

Incepted in the year 1974, Dee-Kay Gears is reputed manufacturer, supplier and exporter of a wide series of gearboxes and allied products that are used in diverse industrial applications. The perfect amalgamation of hi-tech infrastructural facilities, professional management and highly skilled workforce, ensures superior quality in our range. Our product range mainly includes Gearboxes, Custom Built Gearboxes, Planetary Gearboxes, High Speed Gearboxes, Turbo Gearboxes, Extruder Gearboxes, Right-angle Gearboxes, Right Angle Gear Drives, Right Angle Milling Heads, etc. In addition to offering these products, we also undertake gearbox overhaul and annual maintenance of the range we offer. We are also a trusted service provider offering Gearbox Maintenance service.

The company keeps itself abreast of the latest developments, trends and the technologies in the industry and constantly incorporates them in its series of products. Our compliance with highly precise customer specifications serves as a constant objective for our company. Our commitment to precision workmanship with excellent customer service has assisted us in earning ISO 9000:2001 certification. Our range is widely appreciated for their performance and trouble free operation and catered to diverse industrial sectors. We export our goods are mainly exported to the markets located in U.K, U.S.A, Middle East and many other parts of the world.
