## About Us

Founded in 2018, we, Silvergate Engineering Pvt. Ltd., are listed among the preeminent manufacturers, suppliers, and exporters in the industry. Globally recognized for offering exceptional quality Sheet Metal Parts, Automotive Turned Parts, Metal Turned Parts, Brass Knurling Inserts, and other products and building trust, we are one of the favourite choices of several customers. Being totally committed to customer satisfaction, we strive to offer our esteemed patrons as many benefits as possible.

Silvergate Engineering Pvt. Ltd. is a manufacturer, exporter, and original equipment manufacturer (OEM) situated in Jamnagar, India. We supply precision turned brass components throughout India and outside in the USA, UK, Europe, Middle East, Germany, Italy, and Russia. Our components are recognized across the world for their superior performance and cutting-edge technology. This product is suitable for all industrial applications and assemblies. We manufacture precision components, brass turned parts, shrew machine parts, fasteners, and sub-assemblies to precise drawing tolerances. We are a medium-to high-volume provider of various brass products. Our ability to solve manufacturing needs for even the most technically challenging parts stems from our sound engineering and creative flair.
