About Us

We, M/s IDEABYTES Software India Private Limited, are an important arm of the Canadian based multinational technology company, Ideabytes, based in Ottawa. We serve as the Development Center of the company that also has an additional office in Texas, USA. Over the course of 14 fruitful years in business, we have emerged as a pioneering name that stands as a beacon of innovation and technological excellence. Empowering technology and connectivity, we design a range of Data Loggers, including but not limited to Interface Data Loggers, WiFi Data Loggers and Gateway Data Loggers. All Data Loggers are meticulously engineered and then precisely tested at our facility to warrant unbeatable quality and performance. Apart from being a manufacturer, exporter, and supplier of Data Loggers, we also work as a service provider, and help customers explore new frontiers of technology with our Software Development Services, Test Automation Services, IT Solutions, and allied services.

We welcome you to M/s IDEABYTES Software India Private Limited- a forward-looking technology company from Hyderabad, Telangana, that delivers you top of the line devices and systems that are built following the best of international technology. We engineer various types of Data Loggers, also providing professional Software Development, Application Development, and other related services. Taking responsibility to heart and through improved collaborations, we aspire to build better industry contacts and amass many more customers from both India and abroad.
