

AMMONIA LEAK DETECTION SYSTEM

We are manufacturing and supplying a comprehensive range of products which has been approved by National Dairy Development Board, the Govt. of India.

10000 Microwatch Annunciator, Air Purger, Ammonia Gas Detector, Ammonia Gas Leak Detector – LCD, Ammonia Leak Detection System, Ammonia Liquid Level Controller, Ammonia Sampler Moisture Measuring Instrument, Ammonia Solenoid Valve, Automatic Air Purger For Refrigeration Plants, Automatic Liquid Drainer – Type ALD, Automatic Liquid Flow Regulator Type FRVA, Check Valves, Chiller Performance Meter Type – CPM 04, Co2 Portable Handheld Device, Compressor Capacity Controller Type Prcc RCC, etc.

DIGITAL TEMPERATURE AND HUMIDITY CONTROLLER

HOT GAS DEFROST CONTROLLER

INDUSTRIAL SOLENOID VALVES

About Us

Having extensive experience of over 25 years in the domain of manufacturing Industrial Solenoid Valves, Industrial Flow Control Valves, controllers, and allied products, Manik Engineers is counted among the most reputed business entities in the industry. Since our inception, we have been operating on the ethical grounds of business. Quality has always been the driving force of our organization which has enabled us to attain prominent corporate status in domestic as well international market. We are presently regarded as an eminent manufacturer, exporter and supplier of the industry. We have directed all our endeavors towards retaining top notch position in the market. We have been original equipment manufacturer for brands like York, Kirloskar Pneumatics, Alfa Lavel, Frick, Sabroe, IDMC (Indian Dairy Machinery Company), K G Khosla, Cooling People, Blue-Star, Voltas, Batliboi, ACR Engineering, Systems & Components & North Star for past two decades.

We are totally committed to achieve superior quality standards in our products as well as business operations. We have set up a modern testing facility which is well equipped with latest tools and instruments. The facility is backed by the expertise of an experienced team of quality controllers who help us in ensuring flawless production of Humidity Transmitter, Safety Relief Valve, Ice Thickness Controller, Thermostatic Expansion Valve, etc. Our quality analysts make sure that all the products are manufactured in compliance with industrial as well international standards. They manually inspect the sourced raw material before forwarding it for the production process. Moreover, all the finished products are subjected to rigorous testing procedures.

Our well developed infrastructural facility as well as consistent efforts of our workforce enables us to meet the varied requirements of our clients. We have a state-of-the-art manufacturing unit, well equipped with sophisticated machinery & technology that allows us to fabricate technically advanced valves, transmitters, etc. Various machines installed in the unit are regularly upgraded in accordance with latest technologies in order to ascertain swift and smooth production activities. The production unit are manned by a dexterous team comprising highly qualified engineers, technocrats, machine operators, supervisors, and other skilled personnel. Strongly supported by a robust infrastructural set up and expertise of an adept workforce, we are able to complete bulk orders well before committed time frame.

Key Facts

No of Staff	15
Year of Establishment	1980
OEM Service Provided	No

Our Products

Ammonia Gas Detector

Digital Pressure Indicators And

Air Purger

Electronic Temperature Sensors

Pressure Transmitters

Ammonia Solenoid Valve

Pressure Temperature Humidity Scanner

Solenoid Valves Type MS7A And MS8A

Ammonia Liquid Level Controller

Solenoid Valves For Ammonia SA Series

Automatic Liquid Flow Regulator Type FRVA

Pressure And Temperature

Solenoid Valve-MRASV 3 To 40 And DMRASV 10 To 20

Solenoid Valves Type Spmlx

Solenoid Valves Type SPML

Automatic Liquid Drainer - Type ALD
