About Us

Nashtech Peb Project Pvt Ltd is a leading manufacturer and supplier as well as service provider of high quality Pre-Engineered Building (PEB) solution and structural services. To ensure high standards of innovation and accuracy, the company provides the full scope of services such as platform erection work, building of PEB structures, prefabricated buildings and production solutions. We specialize in the development of long-lasting, low cost, and efficient building systems that will adapt to the dynamic needs of the modern infrastructure.

We are proud to provide the state-of-the-art PEB solutions that merge the excellence of the engineering with the functionality. Our group specializes in the construction of light but strong structures, which are easy to install and have sustained strength. Our prefabricated buildings are designed to accommodate various applications (since they come in the form of industrial sheds as well as warehouses) and also possess high structural integrity. We offer end to end services in Nashtech Peb Project Pvt Ltd which encompass all phases of a project like Platform Erection Work, PEB Building, PEB Production, Prefabricated Building, Platform Erection, and more. Our services include elaborate design, high quality production and effective on site installation. We have a careful approach in erecting our platforms and we do this in meticulous planning and execution in order to make it safe and accurate. Through the incorporation of updated machines and updated methods of construction, we provide our projects that meet the level of industry standards and expectations of our clients.
