About Us

We, locate ourselves as a family running business that provide customers with braids, cables and connection technologies. Paras Wires (P) Ltd. has been reigning the industrial sector with immense focus on providing quality that is incomparable. Our quality selling enterprise got commenced by the three strongest business leaders–Mrs. Usha Surana, Mr. Anil Surana and Mr. R.M Surana. We have acquired immense growth in business from rented premises with 4 employees to 80 employees with 3 independent premises and research & development laboratories. Our manufacturer based company has maintained profitable growth by unflinchingly serving customers with different pressures, types and features of products. We are firm believer in complete satisfaction. To obtain satisfaction of customers, we offer a huge spectrum of manufactured products that fit the most advanced needs of the customers.

Paras Wires (P) Ltd. has pleased customers in electrical industry by offering quality. We have attained a respectful position in the market. Our company has gained specialization in manufacturing a huge assortment of electrical items such as CAVS Automotive Wires, Plated Copper Braids, Paired PVC Cables, etc. All these products are developed in compliance with industry set standards so that they can get worldwide acceptance. Under the supervision of experts, our entire range is produced using advance machining tools. By using fastest transportation modes, we make on-time delivery of the orders and for the safety of the goods, pack them in finest grade material.
