About Us

Om Jyoti Engineering Enterprises, a reputable manufacturer and supplier of a large assortment of products, was established in the year 2000 and is headquartered in Noida, Uttar Pradesh, India. The product line also includes Water Level Recorders, Water Filtration Tank, Septic Tank, Wilo BM Raw Water Intake Pump, etc. Our knowledgeable team of specialists conducts market research to assess the positions of potential vendors and select the ones with authentic standing to be a part of our vendor base. In order to fulfil the high quality standards set for our industry, the items are created with great precision. The given items are well-liked by our esteemed customers for their superior effectiveness, ideal finishing, extended service life, corrosion resistance, and strong structure. We are also actively serving as a service provider for Industrial RO Plant Installation Service, DM RO Water Plant Installation Service.

We are also able to promptly satisfy the many different needs of clients thanks to the support of our extensive vendor network. High-quality raw materials are used by our company to create the entire product line. To ensure that only flawless range is delivered to clients, our vendors additionally thoroughly inspect the complete range against predetermined criteria. We select our vendors based on a number of factors, including their financial stability, market reputation, depth of industry knowledge, and capacity to deliver high-quality goods. Our team of devoted and skilled employees helps us provide items of the highest quality. Our providers communicate with the clients to comprehend their diverse requirements using their in-depth expertise and industry experience. In order to keep them informed of the most recent industry developments, we also hold a variety of training sessions and educational initiatives. In order to maintain the quality of our offered products, we have also built a large warehouse and packaging facility. Our warehouse facility is divided into numerous parts and furnished with necessary facilities. Additionally, to ensure the secure and simple transit of the specified consignments, our packaging specialists employ materials of the highest quality.
