About Us

Since 2006, Hash Control Systems has been delivering advanced electronic and monitoring solutions with a strong commitment to quality, reliability, and innovation. Headquartered in Gurugram, Haryana, we are a trusted manufacturer, trader, exporter and supplier of a wide range of products that are trusted by businesses across industries. Our product portfolio includes Monitoring System, Lcd Display, Rear View Camera, Dash Camera and MdvR Cable. With years of industry expertise, we strive to provide our clients with technology-driven solutions that ensure efficiency, safety, and long-term value.

We believe technology should simplify operations and create meaningful impact. That is why our team consistently focuses on research and development, ensuring our products meet the highest standards of performance. By adopting modern manufacturing practices and integrating advanced features, we deliver solutions that are not only functional but also reliable under diverse conditions. Each product is crafted with attention to detail, ensuring seamless performance for industrial, commercial, and personal use.

Every product we deliver undergoes strict quality checks to ensure compliance with global standards. Our experienced professionals supervise each stage of production, from material selection to final inspection. We take pride in offering solutions that are built to last and withstand challenging environments. This unwavering focus on quality makes us a dependable choice for businesses that prioritize efficiency and safety in their operations.
