About Us

We at Newtech Steels are proud of our proficiency in manufacturing superior quality storage solutions such as Water Storage Tank, Fire Fighting Water Tank, Zinc Aluminum Water Tank, Fire Hydrant Steel Storage Tank, Zinc Aluminium Steel Storage Tank, and many other products. Each one of our products is made to meet or surpass international standards, including American ASTM A792M, Australian AS 1397:2002, Indian Standards IS15961:2012 & ISO 9364, and American standards ASTM A792M.

As a customer-based manufacturer, we are dedicated to having supreme quality in all our products. We cater to the special requirements of breweries, distilleries, textile, food, water treatment, firefighting, rainwater harvesting, the building industry, and many other sectors. Our tanks have shown their worth in a variety of applications, such as chemicals with a pH range of 3 to 12, raw water, demineralized water, rainwater, firewater, ETP, STP, and WTP. NewTech Steels is not just a business but a promise of supreme quality and reliability. We are committed to innovation and were founded by sharp professionals with over 6 years of experience.
