## About Us

We at Sanjay Industries are the leading manufacturer and supplier of a broad range of leaf springs that are used in cars, trucks, trailers, and many other products. As an organization with ISO 9001: 2015 certification, we are dedicated to ensuring the quality of our finished goods. One of the most crucial components of a vehicle that supports the terrain is its leaf springs. They are flat, semi-flexible plates that are joined at the corners by bolts and nuts located on the axle of the car. We are one of the best leaf spring manufacturers in India, providing the best specially crafted leaf springs for various vehicles in the nation. We provide a variety of Agriculture Trolley Leaf Springs, Caravan Leaf Springs, E Rickshaw Leaf Springs, Golf Cart Leaf Springs, etc. in addition to OEM-suitable alternative leaf springs and combative performance upgrades.

Quality control is an essential aspect of our manufacturing process of Caravan Leaf Springs, Agriculture Trolley Leaf Springs, Golf Cart Leaf Springs, E Rickshaw Leaf Springs, etc. We inspect the quality of raw materials used in the manufacturing process to assure that they meet the essential specification. Our company has a process in place to monitor and control the manufacturing process, including the heat treatment, shot peening, and painting processes. To conduct these processes seamlessly, we have hired a dedicated quality control team that is responsible for ensuring that the products meet the required standards. This team also performs regular audits to ensure that the processes are being followed correctly.
