About Us

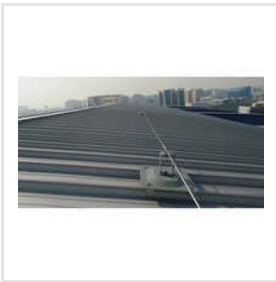

In 2003, Frozen Safety Solution was founded. Our offered product range includes FRP Grating, Vertical Lifeline Fall Protection System, Vertical Lifeline And Ladder System, Adjustable Horizontal Lifeline System, Horizontal Lifeline System, and more. In addition, we offer our esteemed clients Lifeline Installation Services. We make sure the product offers the highest level of customer satisfaction. We stay in constant communication with our clients. We are able to make changes to our products and even introduce new ones to the market thanks to their suggestions. Our purchasing representatives are knowledgeable about the latest developments in technology as well as the most in-demand goods. We guarantee that high-quality materials are used in the production of these products. All this has made us one of the leading manufacturers, suppliers, and service providers in the industry. Our mentor has contributed his vast expertise in technical, managerial, and functional domains to the company while upholding appropriate proportions. He is valued for all of his varied attributes and is adaptable and flexible in the work that he does.

Established in 2003 in New Delhi, India, our company, Frozen Safety Solution was founded. We are known to manufacture and supply safety-related products, including Roof Horizontal Lifeline System, Adjustable Horizontal Lifeline System, Vertical Lifeline And Ladder System, Adjustable Horizontal Lifeline System, Horizontal Lifeline System, and more. Apart from that, we offer various services, including Lifeline Installation Services to our clients. We have more than two decades of industry expertise and, over the years, have served an in-numerous number of clients. Ensuring the safety of our clients is our first priority, and we understand that more than money, it is the trust that they put in us that matters. Thus, we work hard and try our best not to break that trust.
