## About Us

Consider your search for a wide range of Veterinary pharmaceutical products to have come to an end, with the extensive range of pharmaceutical products at Relife Pharmaceutical OPC Private Limited. We offer products such as Chelated Motacal-AD3 Diamond, Motacal Gold Calcium, Calcium and Vitamin D3 Tablets, Cyproheptadine and Cobalt Chloride Bolus, Pantoparazole Soldium Bolus Vet, Nandrolene Decanoate Injection IP, Progesterone Injection, Cephalexin Veterinary Oral Powder, and Uterine Tonic. Being a manufacturer as well as supplier, we try to fulfill all our responsibility as profoundly as possible. Every product that we produce within our manufacturing facility is tested thoroughly and deemed ready for shipment only after our in-house team of quality assurance considers it to be OK for consumption. All our products are tested based on some of the most rigorous quality parameters. Such regular tests and examinations ensure that any prospects of errors and issues are caught early in the production process, and the batches of the affected products are hence discarded, ensuring that only the most prolific quality product reaches the consumers.

We, Relife Pharmaceuticals OPC Private Limited, are one of the leading Veterinary Pharmaceutical product providers in the market. We offer a wide range of pharma products, such as Cyproheptadine and Cobalt Chloride Bolus, Pantoparazole Soldium Bolus Vet, Nandrolene Decanoate Injection IP, Progesterone Injection, Cephalexin Veterinary Oral Powder, and Uterine Tonic. With such an extensive selection of goods, we are able to serve as an one stop shop for all your diverse needs of caring for animals. We manufacture all our products adhering to the most ardent health and safety standards and continually test them till our in-house team of professionals finds them to be perfect for use. Being a major part of the industry, we serve the roles of a manufacturer and supplier. Over the years, we have constantly expanded our business and invested in maintaining new age production machines in our headquarter in Kolkata, West Bengal, India, to better execute business processes.
