About Us

We, Mascot Systems, are the leading supplier, trader and wholesaler of a wide range of products that we supply across India. Our product range comprises Radial Inductor, Re Texas Instrument, Axial Choke, SMD Inductor, etc. These products are widely used in the manufacturing of electronic products, which is why we emphasize on maintaining the stock throughout the year to meet the bulk orders of customers across India. In addition to this, we strive to establish long-term relationship with our vendors and clients by remaining transparent and accountable while dealing with them. We also ensure the delivery of the orders of clients at their preferred locations.

To seamlessly conduct our business activities, we have a team of committed individuals whose united efforts help us achieve our business goals. Each of our employees is highly skilled and professional in his/her dealings. As a result, we have been successfully maintaining our prominent position in the industry since 2001.
