About Us

Gajindra Plastics stands for superiority, our company has spent the last 30 years making high-quality Poly Vinyl Chloride (PVC) compound. Currently, our well-equipped manufacturing facilities in Noida (U.P.) and Daman, export our chemicals to a variety of businesses. The company is led by Shri Charanjeet Singh, the managing director, who has more than 45 years of expertise in this sector and a group manufacturing capacity of 8000 MT of PVC compound. With its high-quality products like Reprocessed PVC Compound, Virgin PVC Compound, Blue Masterbatch, Yellow Masterbatch, etc., at competitive prices, the company has made a name for itself among India's emerging compound makers.

Recognizing the changing nature of technology, Gajindra pledges to stay current with new developments and make sure its clients receive the best, most up-to-date products that adhere to global standards. Because of this, its production facilities follow strong Quality Control Systems that are based on national and international standard systems like BIS, EN, and ISO.
