About Us

We, Sai Refrigeration And Fabrication, are a proprietorship company founded in Maharashtra, India, in 2011. As a reputable manufacturer of high-quality Milk Storage Tanks, Milk Chillers, Cream Separators, Cold Storage Rooms, Milk Plants, Ammonia Refrigeration Systems, etc., we are well-known in the industry. Our products are highly sought after because of their excellent quality and reasonable prices. Moreover, we ensure that our products are delivered on time to our customers. As a result, we have built up a sizable clientele in the market. We also offer cost-effective installation services for Milk Chillers and Milk Storage Tanks.

Our staff comprises highly competent individuals who work tirelessly to complete every task. Their extensive industry knowledge and diligent work ethic have greatly improved our assets. Additionally, we have dedicated quality controllers who examine the quality of our products from various aspects. Our experts make sure that our products meet the expectations of our customers as well as the standards set by the industry.
