## About Us

Quality of products like Thermoplastic Manual Valves and Pipes And Fittings is crucial to ensuring safety in operations across various industries. Many industrial systems in the chemical industry, food and beverage industry, pharma industry, power plants, water & waste water treatment industry, etc., rely on the safe installation and use of these products. Well-fabricated and rust resistant valves and pipes are often used in a wide range of industrial, commercial, and residential applications for controlling flow of fluids, gases, slurries, and even concentrated acids or bases.

At KSC Plastic Valves, we realize the widespread need for such products and make a range of Diaphragm Valves, Heavy Duty Ball Valves, K Type PP Ball Valves, Lined Butterfly Valves, etc., that are highly rated for quality and performance by clients across multiple sectors. As a manufacturer and supplier, we work on a variety of materials, including corrosion resistant metals, durable plastics, and others to engineer a standard as well tailor-made range of products as per specific needs of our valued clients.
