About Us

We, Rifa Safety Private Limited, was founded with the goal of offering the best protection possible for hand to industrial professionals. With years of experience in the safety equipment field, we have established ourselves as a trustworthy supplier and trader of hand gloves that both meet industry standards. Our journey started with a impactful goal: to make workplaces safer for people working in a variety of industries. What distinguishes us is our steadfast dedication to excellence. We work closely with leading manufacturers who carefully choose raw materials to guarantee that every pair of gloves they supply to us is of the greatest calibre. Further, strict testing protocols ensure that our goods offer the endurance and protection required for the everyday obstacles you encounter.

An important part of our business is being environmentally responsible. As part of our efforts to reduce our environmental impact, we integrate sustainable practices across our whole supply chain. We are dedicated to improving safety and the environment through eco-friendly packaging and ethical sourcing.
