About Us

V.K. Engineering Works is a prominent manufacturer, supplier, and exporter of high-quality Seed Cleaning Machine, Oil Neutralizer Machine, Bulk Flow Chain, Screw Conveyor, Filter Press, and more. Our team precisely crafts these items in adherence to industry quality standards, utilizing top-notch components and cutting-edge technology. Our products are well-regarded for their exceptional performance, sturdy build, easy installation, low maintenance, and reliable operation. We provide these products in a range of technical specifications to meet the specific requirements of various industrial sectors such as food, chemical, pharmaceutical, fertilizer, automobile, electrical, and others. We cater to global demand and order values by exporting our products worldwide.

Our state-of-the-art infrastructure facility allows us to produce these products in large quantities and with great efficiency. We have separate units for production, quality testing, warehousing, and packaging, all of which are managed by our highly experienced team of professionals. Our professionals have extensive experience in their respective fields and work diligently to achieve our set managerial objectives. Through close coordination, our experts have positioned us at the forefront of the industry. We are committed to delivering high-quality products to our clients. Additionally, our quality experts conduct various tests to ensure that only perfect products are delivered to our clients. We also ensure that we source the best quality raw materials from reliable industry vendors for the production of these products.
